## Data Column Specification

| Column Name   | Data Type | Description                                                                                                                                                                                                                                                                                                                      |
|---------------|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| MonitorID     | Int64     |                                                                                                                                                                                                                                                                                                                                  |
| DiaryID       | Int64     |                                                                                                                                                                                                                                                                                                                                  |
| TripID        | Int64     |                                                                                                                                                                                                                                                                                                                                  |
| Mode          | Int64     | Transportation mode code. Values: 100=Rail, 101=Subway, 103=Monorail, 200=Tram, 201=Bus, 300=Car, 301=Freight car, 302=Taxi, 303=Motorcycle, 400=Bicycle, 401=Shared bicycle, 402=Velotaxi, 500=Walk, 600=Airplane, 601=Ship, 602=Other, 999=Unknown.                                                                            |
| Purpose       | Int64     | Trip purpose code. Values: 0=Not assigned in this route dataset, 100=Commuting or schooling, 200=Business, 201=Returning to workplace or school, 300=Returning home, 400=Shopping, 401=Dining, 402=Lessons, 403=Hospital visit, 404=Leisure, 405=Sightseeing, 406=Strolling, 407=Escorting, 500=Waiting, 501=Other, 999=Unknown. |
| LinkID        | Int64     |                                                                                                                                                                                                                                                                                                                                  |
| Link_Dep_Time | String    | Link departure time in Japan Standard Time (JST, UTC+09:00).                                                                                                                                                                                                                                                                     |

| Column Name    | Data Type | Description |
|----------------|-----------|-------------|
| Travel_Time(s) | Float64   |             |
| Speed(km/h)    | Float64   |             |
| Link_Cost      | Int64     |             |
| Link_Length(m) | Float64   |             |

---

### Hash Value (BLAKE3)

29cdfd07a8fc804380de28cd77b18bfe7173333222b4fa6ed0951fa198583b90
