

# locData.csv

2021 / Toyosu

## Overview

GPS traces of 331 individuals from 07/18~07/16

## License

Use is permitted only for the 2026 Summer Course on Behavior Modeling in Transportation Networks.

## Data Column Specification

| Column Name | Data Type | Description                                                                                                                                                             |
|-------------|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ID          | Int64     |                                                                                                                                                                         |
| UserID      | Int64     |                                                                                                                                                                         |
| Time        | Datetime  | Date and time in Japan Standard Time (JST, UTC+09:00).                                                                                                                  |
| Lat(WGS)    | Float64   | Latitude in decimal degrees using the World Geodetic System (WGS 84).                                                                                                   |
| Lon(WGS)    | Float64   | Longitude in decimal degrees using the World Geodetic System (WGS 84).                                                                                                  |
| mesh_code   | Int64     | Standard regional mesh (tertiary regional division) . See <a href="https://www.stat.go.jp/data/mesh/pdf/gaiyo1.pdf">https://www.stat.go.jp/data/mesh/pdf/gaiyo1.pdf</a> |
